Subject: RE: Sediment Remediation Plan

Juliet

Thanks for your email and Sims will gladly make ourselves available to meet with your Team. Based on your email, our plan would be to have Peter Zawislanski, Meg Rosegay and myself in attendance. Unfortunately August 16th is not available for some of our Team so we reviewed our respective calendars and found the dates of Aug 28th, 29th or 30th would work for all. Would any of these proposed dates work for EPA? Let me know and if not please provide some alternate dates.

Regards, Melisa

Subject: Sediment Remediation Plan

Melisa,

In anticipation of Sims drafting the Sediment Remediation Plan (SRP) as required by the consent decree, we would like to meet with you and your consultant to discuss the sampling results, our concerns and expectations (and yours) so as to save time in Sims drafting the SRP. As you know, the second round of sample results were sent to us recently in the Sims Draft Sediment Investigation Report, and Sims recently took some additional grab samples of the riprap (and we anticipate soon receiving those results).

Are you all available to come to our office for a meeting the afternoon of August 16? Our attorney Rich Campbell will be attending also.

Regards,

Juliet Hannafin
